Introducing Coco Flamingo! A cocollaboration between Birmingham, Alabama's TrimTab Brewing and LaGrange, Georgia's Wild Leap Brew Co. We started with an outrageous addition of toasted coconut to an already big bodied and toasty grain bill, followed by a heavy addition of citrus driven hops in the whirlpool. Days later we added the fresh key lime and tangerine purée and finally, we topped it off with a generous dry hop consisting of elusive Lotus and Sabro hops. This beer is over the top, but balanced. Coconut, lime and tangerine are all working in unison to produce this interesting tropical twist on hazy double IPAs. *Welcome to the Coco Flamingo! We hope you enjoy your stay!*
